Subject: Letter of Reference

May this document serve as a letter of reference for Bryan Smith who is owner and operator of Legacy Tele Data Services LLC.

I have utilized Bryan's company on four major projects where time lines were crucial. Bryan and his team came in got the job done and got it done right as well as came under my budget.

Legacy Teledata Service performs their work in a very professional manner, with clean installations, cables identified, and tested.

I would highly recommend Bryans Company to anyone who wants the job completed properly and at a competitive cost.
